

MANUAL BACKPACK SPRAYER 20L (BRASS PUMP)

This Manual Sprayer is a reliable and easy-to-use tool designed for efficient spraying in gardens, farms, and household applications. Its manual operation allows precise control over pressure and flow, ensuring even coverage and effective performance. Built with durable materials and a user-friendly design, it is ideal for spraying water, pesticides, fertilizers, and cleaning solutions with ease.

USAGE OF MACHINE

Agricultural
Spraying

Horticulture &
Gardening

Disinfection &
Sanitization

Weed & Pest
Control

FEATURES

- **HIGH-CAPACITY TANK (20 LITRES):**
Designed with a 20-litre large tank, this sprayer allows users to cover wider areas without frequent refilling. It's perfect for agricultural fields, gardens, and pest control applications, offering extended operation time and convenience.
- **DURABLE BRASS PUMP:**
Fitted with a premium brass pump, it ensures smooth and consistent spraying performance. The brass construction provides excellent resistance to wear and corrosion, extending the overall lifespan of the sprayer even under intensive use.
- **MANUAL OPERATION FOR FULL CONTROL:**
Operated manually, this sprayer allows farmers and gardeners to maintain precise control over the pressure and spray pattern. Its simple mechanism makes it easy to use and dependable, even in areas without electricity.
- **STABLE WORKING PRESSURE (0.3-0.4 MPA):**
With an optimal working pressure range of 0.3-0.4 MPa, it ensures fine mist formation and uniform spray coverage. This helps achieve better absorption of fertilizers and pesticides, improving crop protection and productivity.
- **STRONG PP MATERIAL CONSTRUCTION:**
Made from high-quality polypropylene (PP) material, the sprayer is tough, durable, and resistant to chemicals. The robust build ensures long service life, even when used with various agricultural solutions.
- **COMFORTABLE AND PRACTICAL DESIGN:**
Designed with user comfort in mind, it features an ergonomic structure and balanced weight distribution. This minimizes fatigue during long spraying sessions and makes it practical for daily agricultural use.
